**We begin our second session of After School Clubs with the addition of another new fun club!** All of the clubs are offered again except the Dance classes, which continue through this second session. Now is your chance to mix it up and try something new and different, or register again for your favorite club.

Please review carefully and make your registration choices. Remember, DO NOT send a check, as your child(ren)'s account will be billed for your choices.

**All registrations should be completed on the back page and returned by October 31, 2006.**

The class dates are listed with each club. There are NO clubs on minimum days or days that school is closed. All clubs have a minimum and maximum enrollment, so choose carefully and as soon as possible. You will only be notified if the club you chose is cancelled due to less than minimum enrollment.

Any questions or comments may be addressed by calling 661-0108, ext. 659, or e-mail to [lisa.mers@smes.org](mailto:lisa.mers@smes.org).

Thank you for your continued support of our After School Clubs Program.

**Lisa Mers, After School Club Coordinator**

**ART**

Come join us for After School Art Club's "Holiday Session."

Mrs. Mayer and Ms. Cunningham will be offering a variety of projects like printing your own Christmas cards, creating holiday ornaments and a few more surprises!

**ACADEMIC CHESS**

Our after school program is the perfect environment for students of all skills levels. Students will be grouped by age and ability. Our experienced chess masters teach chess concepts to students in a fun and fascinating way using animated stories. Chess will help your child develop critical thinking and memory skills, confidence, sportsmanship, patience, and problem solving. All students will receive an exclusive Academic Chess workbook and will have an opportunity to receive prizes at their class tournaments. Specific questions should be directed to the Academic Chess Institute at (949)448-PAWN (7296). We make chess fun!

**CREATIVE CLAY**

The Creative Clay Club with Mrs. Nelson offers your child an opportunity to be imaginative and unique! Each child is able to explore the expressive qualities of clay and work to his or her own level on each project. The goal of the clay classes is to allow your child to participate in challenging creative problem solving activities while improving fine motor development.

Your children will make a Thanksgiving turkey as well as construct other sculptural and useful objects while learning the basics of working with clay. Christmas ornaments will also be a result of this fun filled class. No experience is necessary for this exciting class.

For the safety of your child, please pick up at the classroom door.

The teacher is Mrs. Nelson, the Visual Arts Chair at SMES and teaches in the U/S.

**SCIENCE**

Who was born on Christmas Day just after Galileo died, was sent back from college in London because he was not a very good student, and later became one of the best scientists, mathematicians and astronomers of all time?

You know him as the man who got hit on the head with the apple, Sir Isaac Newton.

Now come to Science Club and find out how he would explain Newton's Cradle, Jacob's Ladder, balls whirling in bowls and planets crashing into the sun. Learn Newton's three laws of motion and what he thought about rockets and jet propulsion, falling objects,

including the apple that hit him on the head, and calculus...well, maybe not in this class!

Choose from two different times:

**MONDAY 3:15 pm - 4:15 pm**

**MONDAY 4:15 pm - 5:15 pm**
